

Online Public Comments for the August 19, 2021 District 54 School Board Meeting

Received August 18, 2021

Comment 1

Thank you for the continued perseverance shown by our Board, administrators and staff. While it was not ultimately this Board's decision, I support mandatory, universal mask usage in schools until the time comes when vaccines are available for all and the risk of infection is low. This policy allows all of us the freedom to send our children to school in person without taking unnecessary health risks. Please remain focused on expert guidance when it comes to the well-being of our children.

Lauren Saternus

Comment 2

I support the school mask mandate and COVID testing. If anything, I would like it to be even more stringent with mandatory vaccination for staff and mandatory testing for students. There's nothing more important than the health and safety of our children and teachers.

Tom Coughlin
